

My training is preparing me for the future. I enjoyed building the bathroom, toilets and kitchens in the Berrimah workshop the most. Thank you to Gwelo Developments for the opportunity they have given me.

The School based encouragement award goes to a young man who travels to Darwin for School to complete his senior years of secondary school. He is completing a Certificate II qualification, three days a week with his host employer and completing his schooling on the other two days. He has been described as a role model and displays leadership qualities at his school, boarding house and community. He has long term goals of being able to take his skills back to his community so he can train others in the building and construction industry.

And the winner of the School Based Encouragement Award is Justin Fuller – Hosted by GWELO – Completing Certificate II in General Construction - Developments - he attends Marrara Christian School- his registered training organization is Advanced Training International
