

After you take PTE Academic

Did you get the score you wanted?

Congratulations!

Now it's time to send your scores to your chosen institutions. You must do this online via our secure portal. Visit pearsonpte.com/AccessingScores

Do you need to retake PTE Academic?

Rather than rushing to re-book, stop and review the scores you received, then plan to improve your results.

Take a look at the strategies on the following page. ►

1. Review your Score Report

Are you close to your target score?

If you are close to your target score, make your preparation test-focused, rather than learning English in general. Determine the skills you need to improve, then focus your preparation on them. These skills include both the enabling skills (grammar, oral fluency, pronunciation, spelling, vocabulary, and written discourse) and communicative skills (listening, reading, speaking and writing).

Remember, your overall score is based on your performance on all test questions, so focus on the weaker areas and plan how long you'll need to study to improve your English skills to the desired level.

Do you need to score a lot more points?

If there is a big gap between your score and your target score, you should take the test at a later time. Aim to improve your general and academic English skills with self-study or by taking an English course.

2. Prepare

- Make sure you know the test format, how it's scored and review the test tips by viewing our free preparation resources online.
- Focus on the skills you identified when reviewing your Score Report.
- Use quality preparation resources, such as our official coursebooks.
- Consider taking an English course, either face-to-face or online.

3. Practice

- Complete a Scored Practice Test and sample test questions.
- Make the most of every spare moment to practice speaking, listening, reading and writing in English.
- Observe native speakers and English media sources like newspapers and television news.
- Consider joining an English-speaking group.
